

Your Organisation Can Enhance Cybersecurity

Collaborate with Us!

Organisations are invited to share their expertise, co-create content for the portal, or join our marketing initiatives.

Your Organisation Can Enhance Cybersecurity

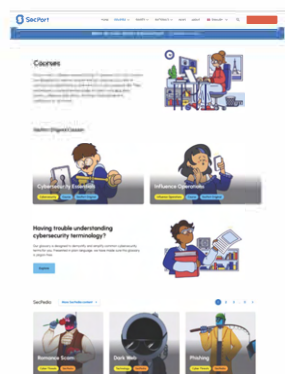

With cybercrime now ranking as the world's third-largest economy, the need for cybersecurity awareness is more critical than ever. Increasing cyberattacks on infrastructure and widespread scams result in financial losses, data breaches, and societal division through manipulated information. To effectively combat these everyday threats, good cybersecurity awareness and skills of everyone all across Europe are essential.

Combat Cybersecurity Threats with Our Free Resources

CYBER CITY TYCOON

A free mobile game launched across the Europe in November 2024, guiding users to understand cyberthreats through interactive gameplay, with particular appeal for younger audiences.

SecPort

A comprehensive cybersecurity resource offering courses, articles, glossary, guides, and games that support users in their everyday life.

secport.org

Collaborate with Us!

Cyber Citizen Initiative wants to continue collaborating with European cybersecurity actors. We invite you to enhance the portal by sharing expertise, co-creating content, or joining marketing initiatives.

Content

Share resources or co-create new content or share expertise in cybersecurity topics.

Co-Marketing

Increase the game's and portal's reach by sharing information across your channels.

Research

Join studies or provide data on cybersecurity to keep the resources relevant.

Sponsorships and Fundings

Support the project's expansion or create targeted resources through sponsorships, grants, or funding programs.
